OVERVIEW

The Bachelor in Social Science programme delivers a broad-based undergraduate education centered on the disciplines of Psychology, Sociology and Political Science. Combining these disciplines gives the student a holistic, multi-disciplinary and integrated approach to the study of phenomena in the social sciences and develops the tools and frameworks applicable to careers in human resources, education, management and other analytical and social-intensive professions.

The programme consists of a combination of coursework as well as opportunities for hands-on research supervised by faculty members. The programme also contributes significantly to Singapore Management University’s General Education (GE) course offerings.

The faculty members in the programme are committed to providing a balanced excellence in teaching and research as well as contributing service to the university, community and profession. The programme aspires to be an interactive, collegial environment that models and encourages open communication and life-long learning.

The Senior Thesis in Political Science is an intensive course designed for BSocSci students who have declared Political Science as their primary major. Students will conduct an original empirical research study under the supervision of a Political Science faculty. Eligible students should first approach a relevant Political Science faculty and secure his or her agreement to supervise the thesis before bidding for the course. The student will be actively involved in all stages of the entire empirical research process including formulation of research question, literature review, design of study, development of measurement and procedures, data collection, data analysis, and writing up of the final thesis report. Students will complete the thesis over two consecutive terms, typically in their senior year. Students will submit their final thesis report two weeks before the oral defense of the thesis to a thesis committee. The oral defense will typically be held on the
week before the university’s final examination week. The final grade for the thesis is based on the thesis report and the oral defense. Students may also be required to present the findings of the thesis research to faculty members and other students in seminars held after the University’s final examinations.

The prerequisites are:

POSC003 Introduction to Political and Policy Studies and at least another SEVEN Political Science major courses. In addition, the student has to obtain a GPA of at least 3.40 for Political Science major courses. The offering of senior thesis for a student is dependent on the availability of suitable faculty to supervise the thesis. Unless special permission is granted by SOSS, the student must be a BSocSc student who has declared Political Science as a primary major.

Application form, details and deadline are available on OASIS > BOSS > Courses & Schedule > Senior Thesis Course

SECOND MAJORS

All SMU students enrolled in a single degree programme may opt to do a second major in any of the following:

Offered by School of Social Sciences

*Important note on double counting: BSocSc students with a second major in Social Science are not allowed to double count between their first and second major.

- **Political Science**

  Political Science addresses important relevant questions, from the protection of rights and the organization of power within countries to international relations and terrorism. The courses provide the analytical tools to understand and interpret contemporary and historical events, while simultaneously sharing important insights on how power is structured, contested and exercised. The courses draw from all major subfields in political science – comparative politics, international relations, political theory and political economy.

- **Psychology**

  Psychology is the scientific study of behavior and mental processes. Behavior encompasses everything that people do that can be observed, while mental processes refer to thoughts, feelings, motives, and other unobservable phenomena. Psychological theories and research have a number of applications in the business industry, educational settings, public policy, and more. The major sub-disciplines of psychology include social, developmental, cognitive, biological, health, industrial/organizational, abnormal, and personality psychology. Psychology majors gain hands-on experience in formulating research hypotheses and designs, analyzing data, and interpreting and integrating research findings within the framework of psychological theories, and communicating and critiquing research findings.

- **Sociology**

  Sociology is a diverse discipline, which aims to explain societal trends and institutions to make sense of culture, politics, and the economy. Our international team of sociology faculty reflects the diversity of research in sociology as we study and teach globalization, gender, family, and demographic change, the economy and politics from a sociological perspective. Our courses also address challenges to societies derived from social inequality, migration and urbanization, and the role of networks in social outcomes such as fads and fashions. Sociology graduates from our programmes will be able to apply to a range of jobs in the private, government and non-profit sectors.

- **Arts and Culture Management**

  The Arts and Culture Management (ACM) second major provides students with the perspectives, foundational knowledge, introductory skills and vocabularies for entry into the arts and culture industry.

  ACM grooms the cosmopolitan manager who is at ease with cultural diversity, and able to capitalise on the new ideas and energy through engagement in the arts. ACM uniquely
brings together theory, practice, and management. Faculty will join with practice leaders to provide learning that will move beyond classrooms into the field.

Programme Structure

To fulfil the requirement of the Arts and Culture Management second major, students must complete eight courses from the following lists.

- Public Policy and Public Management

The PPPM second major is designed to provide students with a general foundation in the nature of public and non-profit workplaces and their political, psychological, and legal environments. In addition, the major heightens students’ critical thinking and problem-solving skills through various types of field research and case studies. In particular, the major is unique in its emphasis on the integration of academic study with real policy problems that is further enhanced through the Public Policy Task Force Programme. The Task Force is an important part of the PPPM curriculum and is designed to give students the opportunity to apply knowledge and skills acquired in the classrooms to real world problems. Students will engage in collaborative, client-oriented, and problem-solving projects on critical public policy and management issues.

The PPPM faculty will work closely with practitioners with extensive experience in policy and management from both the private and public sectors to allow students to gain practical insights on government and public affairs. Upon completion of this second major, students will be well equipped to pursue careers in non-profit, public and private sector organizations.

- Legal Studies

All students MUST declare their First as well as Second (if any) Major within their first 4 regular terms of study (inclusive of term on leave of absence and/or international exchange) via OASIS > Academics > Programmes & Majors > Declare Major.

For updated details on the second major requirements and availability of tracks, please refer to OASIS > Academics > Advisement & Curriculum > Second Major Requirements.
DOUBLE COUNTING POLICY

Double counting of courses to both first and second majors is allowed, except if you are a second major in ACM, IAS/GA or PPPM. You are allowed to double count General Education, Technology & Entrepreneurship, Global & Regional Studies, and Social Science Major Related* to your second major only. A course must be cross-listed to the respective course area before it can be possibly double counted. Refer to BOSS “Class Search” option to check if a course is cross-listed.

Double counting does not give you two course units for one course. It allows you to clear two course area requirements from your degree requirement with one course. Students who complete all course area requirements in the degree requirement in less than 38CUs (for single degree, double majors), are required to take additional courses to meet the minimum 38CUs needed for graduation.

For example:

1) You are a BSocSc student with Psychology as your 1st major, and Marketing as your 2nd major.
   - You can double count PSYC + MKTG
   - You can double count MKTG + General Education, MKTG + Technology & Entrepreneurship, MKTG + Global & Regional Studies, or MKTG + Social Science Major Related

2) You are a BSocSc student with Psychology as your 1st major, and Public Policy and Public Management as your 2nd major.
   - You cannot double count PSYC + PPPM
   - You can double count PPPM + General Education, PPPM + Technology & Entrepreneurship, PPPM + Global & Regional Studies, or PPPM + Social Science Major Related

*Refer to section on Social Science Major Related.

INTERSHIP PROGRAMME (10-WEEK ATTACHMENT) – GRADUATION REQUIREMENT

Dato’ Kho Hui Meng Career Centre (DKHMCC) manages all internship placements for students at SMU. All students must complete a 10-week internship as part of their graduation requirement.

Accountancy, Information Systems and Law students have degree specific requirements for internship. Double Degree students are to ensure that they satisfy the criteria of internship set for both primary and secondary degrees for fulfilment of graduation requirement.

**DKHMCC Internship Guidelines**

Full-time matriculated students can start their internship after successfully completing two terms and having attended an internship briefing.

To have a successful internship, do prepare and plan ahead. Below are some points to note:

- Students may source for their own internship, or browse through the internship opportunities on OnTRAC II.
- Prior approval must be attained for all internships before embarking on the stint.
For self-sourced internships, students must submit a self-proposal via OnTRAC II for DKHMCC’s approval. The same guidelines and process will apply to students with internship obligations as part of their scholarship.

Overseas Internships require valid visa and travel insurance before DKHMCC’s approval is granted.

The approved internship must be carried out on a full-time basis for a total of **10 weeks** completing 400 hours.

Students are recommended to register their subsequent (2nd/3rd) internships with DKHMCC for approval.

**Internship Periods**

Students are recommended to embark on their internship during Summer/Winter vacation break or during term-time*.

*During term-time, students embarking on full-time internships to apply for Leave of Absence (LOA), restrictions however apply to student pass holders. Please read up the LOA policy via OASIS > Finance & Admin > Absence & Withdrawal > Leave of Absence (LOA). Students need to initiate the application for LOA as this process is not automatic. All part-time internships are subjected to approval by DKHMCC and student pass holders are to keep to a maximum of 16 hours of work per week.

**Internship Grading**

- **Internship Report**
  At the end of the internship, students must submit an internship report within one month from the last day of the internship stint. To complete the internship report, students are to access the report via OASIS > Career Devt & Comm Svcs > Participation and Grading Details.

- **Performance Appraisal**
  A performance appraisal will also be required of the Supervisor / Reporting Officer, under whose supervision the student completed the internship to give feedback on the students’ performance.

Where a student scores below average in his/her "Overall Grading" in the Performance Appraisal, that internship placement will not be recognised towards the fulfilment of the required 10-week internship requirement.

Students’ Internship will be graded and considered complete when submitted documents satisfy the graduation requirements and meets the objectives of the internship programme.

For more information, visit ontrac.smu.edu.sg; alternatively you may refer to OASIS > Career Devt & Comm Svcs > Internship

**COMMUNITY SERVICE (CENTRE FOR SOCIAL RESPONSIBILITY)**

Students are required to be actively involved, to serve and give back to society with a minimum of 80 hours. This is to inculcate in students the value of being responsible and civic-minded citizens of society. Thus, they are encouraged to start their community service attachment early, preferably in the first year of their study.
The Centre for Social Responsibility (C4SR) oversees the community service initiatives of SMU students and guides and mentors them to undertake local or overseas service learning projects that are meaningful and sustainable.

As preparation for Community Service Projects are essential, students must first attend the compulsory Community Service Briefing conducted by C4SR. This briefing is to set the tone for community service as an SMU graduation requirement; without which the community service rendered will not be acknowledged as part of the fulfilment of the graduation requirements.

Students may work with a maximum of three Organizations to fulfil the first 80 hours. At the end of the attachment, the Host Organizations are required to appraise the students’ performance.

After completing the first 80-hour requirement, students must submit a written report through SMU Oasis. Students’ Community Service will be graded and considered complete only when submitted documents are assessed to be satisfactory and meeting the objectives of the community service programme, in which case the Community Service will be given an overall "pass" grade.

For more information, please refer to OASIS >Career Devt & Comm Svcs> Community Service.
DOUBLE DEGREE PROGRAMME

The double degree programme provides students with flexibility in their career options. Under the double degree programme, a student can graduate with two degrees in

- Social Sciences & Accountancy
- Social Sciences & Business Management
- Social Sciences & Economics
- Social Sciences & Information Systems Management

For details on the application of double degree programmes, please refer to OASIS> Study> Regulations and Policies.

Minimum Number of Courses Required

A BSocSc student must complete a minimum number of courses to fulfill the degree requirements of both programmes. Please refer to the table below on the minimum number of course units required.
